Subject: Status of Schoo Mine

Hi Tom.

I finally connected with Tim Mosey this morning.

Apparently RCF has retained an industrial minerals/perlite expert to help them find a buyer for the Schoo Mine and Tim feels confident that the property will sell this year. The potential buyer would presumably just mine, crush and screen on site and truck the sized material to Milford to load it on rail cars. That being the case, RCF is not eager to get going on partial reclamation of the Schoo site. He acknowledged that if a buyer doesn't materialize this year, it would appropriate to reclaim the perlite fines disposal area.
